Calotabs

The purified and refined calomel tablets that are nausealess, safe and sure.

Medicinal virtues retained and improved. Sold only in sealed packages. Price 35c.

A Coated Tongue? What It Means

A bad breath, coated tongue, bad taste in the mouth, languor and debility, are usually signs that the liver is out of order.

Prof. H. H. Meyer says: "The liver is an organ secondary in importance only to the heart." We can manufacture poisons within our own bodies which are as deadly as a snake's venom. The liver acts as a guard over our well-being, sitting out the cinders and ashes from the general circulation.

Dr. Pierce's Pleasant Pellets are made of May-apple, leaves of aloë and jalap, first put into ready-to-use form by Doctor Pierce nearly fifty years ago, and sold for 25 cents by all druggists as Dr. Pierce's Pleasant Pellets.

Burnham, Pa.: "I take pleasure in recommending Dr. Pierce's medicines. We have been using Dr. Pierce's Pleasant Pellets for six or seven years. This really is about all the doctoring we do when anything is wrong with the family. We keep the 'Pellets' in the house all the time—will not be without them."—MRS. CHAS. McMINN.

Palmira, Pa.: "I had severe attacks of chronic diarrhoea. I had been plagued with it for years and at the request of my son got Dr. Pierce's Golden Medical Discovery and was cured. I can highly recommend the 'Discovery' for chronic diarrhoea and have told others to try it; it is also a great nerve builder."—JACOB H. MARTIN, Route 2

Constipation

Constipation can be permanently overcome by gently stimulating and schooling the liver and bowels to properly function. Discontinue the use of all salts and cathartics and purchase a 30c vial from your nearest druggist of the greatest and mildest cathartic discovery of the age.

MUNYON'S Paw Paw Pills

Adler-i-ka Again!

"After using Adler-i-ka I am entirely cured of chronic bowal trouble. I can eat good and work every day. My neighbor is also using it with wonderful results."—(Signed) Mrs. T. H. Smith.

Adler-i-ka treats BOTH upper and lower bowels so completely it relieves ANY CASE gas on the stomach or sour stomach. Removes a surprising amount of foul, decaying matter from the alimentary canal (which poisons the stomach for months). Often cures constipation. Prevents appendicitis. The INSTANT pleasant action of Adler-i-ka astonishes both doctors and patients. It is a mixture of buckthorn, cascara, glycerine and nine other simple ingredients. People's Drug Store.

PRESIDENT HAS ALL NATION AS 'DOCTOR'

Letters of Advice Reach White House From Everywhere In America.

The two most human qualities displayed by the people of a great nation when their titular head or popular idol is overtaken by sickness or misfortune are sympathy and advice. Never has this fact been more clearly demonstrated than during the present serious illness of President Wilson. From the time of the first announcement that the President had been forced to cancel all engagements up to the present the people of this country have ceaselessly, day by day, poured out to him their expressions of sympathy and advice. Of this great sympathy the President has as yet heard nothing. Ambassadors, foreign ministers, Senators, Representatives, Cabinet members, high officials of state and delegations of citizens have called at the White House to pay their respects. Kings and potentates have called their expressions of sympathy and regard. All communications have been received and formally acknowledged, then carefully hid away in the White House archives. The President's physicians have decreed that his only hope for complete recovery lies in his absolute seclusion and rest, both physical and mental.

All sorts and conditions. The messages of sympathy differ only in the manner of expression from the carefully worded and correctly formal notes of the diplomat to the rudely scrawled outpourings of the President's humblest but most ardent admirers.

Officially, Rear Admiral Cary T. Grayson, the President's personal physician, has had the assistance and advice of but six other eminent medical men, but unofficially and gratuitously he is advised by thousands of people daily. Every person in the United States that ever recovered from anything like a similar affliction, it would seem from a general survey of the daily mail receipts, has taken the proverbial pen in hand and offered the benefit of their experiences for the consideration of Dr. Grayson.

With every curve on the chart of the President's illness as indicated by the two daily bulletins issued from the White House there follow hundreds of letters and telegrams advising what should be done according to the personal experience of the writers. Many of the letters are followed by medicines, from natural herbs with instructions, to patented cures, all, various devices, mechanical and otherwise, have found their way to the Executive Mansion with minute instructions as to their uses.

Cults Offer Advice. Devotees of every kind of health cult have volunteered to help with their treatment, with cures of all kinds have been offered. In fact, to the White House attaches at least, the whole nation seems to be prescribing for the President. Mrs. Wilson has not escaped the tide. Many of the letters addressed to her have been of the admonitory "old wife" character, counseling her as to how she can best care for Mr. Wilson and recounting the sender's personal experiences in caring for her "good man."

Both Mrs. Wilson and Dr. Grayson have been deeply moved by the evident sincerity of these letters, and although their numbers preclude the possibility of their giving each one their personal attention each has frequently expressed appreciation of the good intention of the public.

RAILROAD WORKERS DENY STRIKE PLAN

Brotherhood Chiefs Assert Sessions Discuss Overtime Pay Proposals.

CLEVELAND, Ohio, Nov. 27.—Railroad brotherhood chiefs in conference here today emphatically reported they were holding secret sessions on the question of calling a nation-wide strike of railway workers for December 1.

Nearly 300 general chairmen are participating in discussions of the overtime pay offer made to workers in the slow freight service by Walker D. Hines, director general of railroads. William C. Lee, president of the Brotherhood of Railway Trainmen, in a statement to the press, said: "No motion or resolution pertaining to a quick strike has come before the conference. The railroad men of the four railroad brotherhoods in session here for action, and I do not know whether any such motion or resolution will be presented."

After stating he received messages from Kansas City, indicating a strike threatened, he said: "I have said to all of them in reply, that if they think they are bigger than the United States Government, which is operating the railroads at present, I have no advice to give them."

Timothy Shea, acting president of the Brotherhood of Railway Engineers and Firemen, said: "All we will consider here is Mr. Hines' time and a half proposal for overtime. I believe I can safely say it will not be possible for any faction or group to stampede this conference into a vote on a general strike."

MONGOLIA TO RETURN AS CHINESE PROVINCE

Princes and Lamas The of Autonomy and Ask Mother Country to Take Them Back.

PEKING, Nov. 27.—Mongolia is to come back under the protecting wing of China. A petition requesting China to take political and diplomatic control has been brought to Peking by General Hu-shu-chang. The petition is signed by all the princes and lamas of Mongolia. It is understood that a mandate will be issued today embodying the petition and adding that the Ulaan treaty and the Ulaan protocol notes and the Russo-Chinese notes regarding outer Mongolia are abrogated. As regards Russia a commercial treaty, the mandate will say that China will bear the full responsibility and make special arrangements for them when a new Russian government is established.

Editorial

There appears to be a distinct proportion between education and the productive activities of a nation.

Statistics show that over 67 per cent of our total population leave school before completing the eighth grade. Figures from the Department of Interior show that 68 per cent of our citizens earn LESS than \$15.00 per week.

It is also a fact that only 33 per cent of those graduating from the eighth grade go farther. And only 32 per cent of the workers of the nation earn more than \$15 per week up to May last year.

Carefully gathered statistics are a good thing to have. Don't these show that the way of improvement in our industrial life lies through education?

Let us keep our children interested in their books.

Baby's Winter Gifts
